Carleton Jones High School | 2013 - 2018

PROFESSIONAL SUMMARY

MES Developer with experience developing and supporting business applications, reporting solutions and data-driven systems using Power Platform, SQL Server, SSRS, Power BI, ASP.NET Core and Angular. Experienced in requirements gathering, workflow automation, database development, system maintenance, documentation and end-user training. Interested in progressing toward data engineering and analytics while expanding knowledge of AI and AI agent development.

PROFESSIONAL EXPERIENCE

MES Developer | Omnia Holdings

2023 - Present

- Develop and design user-friendly Power Apps solutions for business processes using canvas and model-driven approaches.
- Design Power Automate workflows and integrate them with Power Apps to streamline business processes and task management.
- Gather and analyze end-user requirements and translate them into practical application and system solutions.
- Maintain MES systems and perform routine checks to support dependable business operations.
- Create work instructions, user requirements, functional designs and training documentation for implemented solutions.
- Design and generate SSRS reports to support operational reporting, analysis and data visibility.
- Build application databases and data warehouse structures for dashboards and reporting, using SQL Server, stored procedures and indexes.
- Develop Power BI reports and dashboards for data-driven insights.
- Build ASP.NET Core applications with Angular and support end-user training on company systems.

Youth Lead | AFM Life Overflowing Zone 10

Nov 2024 - Present

- Serve on the church youth committee, engaging and supporting young people within the congregation.
- Organize activities, events and programs that promote spiritual growth, fellowship and community service.
- Provide guidance and mentorship while fostering an inclusive environment where young people can share their experiences and faith.
- Collaborate with church leadership to address the needs and interests of the youth.

Multimedia Volunteer | Every Nation Faith City

2019 - 2021

- Created and managed sermon presentations and multimedia content used during church services.
- Supported live presentation delivery while developing communication, organization and teamwork skills.
